INSTRUCTIONS

- All plots must have GPS point taken at plot center.
- Plots must be located at same GPS points as compliance check.
- Take 1-1/100 circular plot per point, radius is 11'9.3"for pines and 1/20 acre plot with a radius of 26'4" for hardwoods.
- Record the total number of trees in the plot, both planted and natural (Col. D)
- Columns B and C should equal Col. D.

Planted Living Trees /Acre: Number of planted trees (Col B), divided by the number of plots (Col. A) x 100.

Stocking/Acre: Total Trees in Plot (Col. D) divided by the number of plots (Col. A) x 100.

Percent Survival: Total number of Planted Trees (Col. B) divided by the sum of Total Trees (Comp. Check) x 100.

SURVIVAL RESULTS
(Use Numbers from Survival Report)

Planted Living Trees/Acre: _____

Stocking/Acre: _____

(Use Total Trees from Compliance Check)

Number of Trees /Acre on Planting Compliance Report: _____

Percent Survival: _____ %

PLOTS REQUIRED PER ACRE

Take the same number of plots as was taken on the Compliance Check.

TYPE OF PLANTING METHOD

☐ Hand ☐ Machine

PROGRAMS

☐ FRDP ☐ Tax-Credit
☐ FLEP ☐ Public Lands
☐ CRP ☐ Other Public Lands
☐ EQIP ☐ No C/S
☐ Other _____

SPECIES PLANTED

☐ Longleaf ☐ 2G North
☐ 2G South ☐ 3G North
☐ 3G South ☐ Imp. South
☐ Imp. North ☐ Imp. Slash
☐ Hardwoods (list species planted in notes)
