MAXIMUM PAYLOAD SIZE FOR VEHICLES

Cooperator is responsible for insuring that add on tanks, pumps, hose reels, etc. will not cause the vehicle in this agreement to exceed the gross vehicle weight rating (GVWR).

Vehicles designed primarily for OFF-ROAD USE, maximum payload should be calculated by subtracting the curb weight* from the gross vehicle weight rating (GVWR).

Vehicles designed primarily for ON-ROAD USE, maximum payload should be calculated by multiplying gross vehicle weight rating (GVWR) by 0.85, then subtracting the curb weight*.

*The curb weight of a vehicle shall include the weight of the chassis and cab with all attachments, accessories, and equipment, including a full complement of fuel, lubricant, and coolant.

COOPERATIVE EQUIPMENT AGREEMENT INFORMATION

COOPERATOR AGREES TO:

- Sign a Cooperative Agreement with the Mississippi Forestry Commission.
- Convert equipment into Fire Apparatus or Emergency Unit.
- Paint equipment (red, white, yellow) and put into service within 6 months.
- Provide shelter adequate to protect equipment from vandalism and adverse weather within 6 months.
- Provide photos of equipment to MFC upon completion of painting, housing, and getting in-service.
- Obtain, prior to operation, liability insurance on equipment and continue in effect for duration of cooperative agreement.
- Ensure that equipment is used for FIRE AND EMERGENCY RESPONSE ONLY.
- Take ownership of all equipment acquired. Vehicle Titles will be transferred to the VFD or Authorized Entity (not an individual) after final inspection by the Mississippi Forestry Commission.
- Ensure equipment is maintained in working condition no less than one year from the date item was painted, housed, and put into service.
- Ensure equipment is disposed of according to state and local public property guidelines.
- Maintain records on equipment, no less than 7 years after disposal.
- Each Cooperator will be responsible for payment of a Processing and Handling Fee of \$100 for each piece of equipment that requires a title.
