

MS Forest Legacy Program 2022 Application Application Deadline July 15, 2022

See last page for application address and MFC contact information.

ABOUT THE FOREST LEGACY PROGRAM

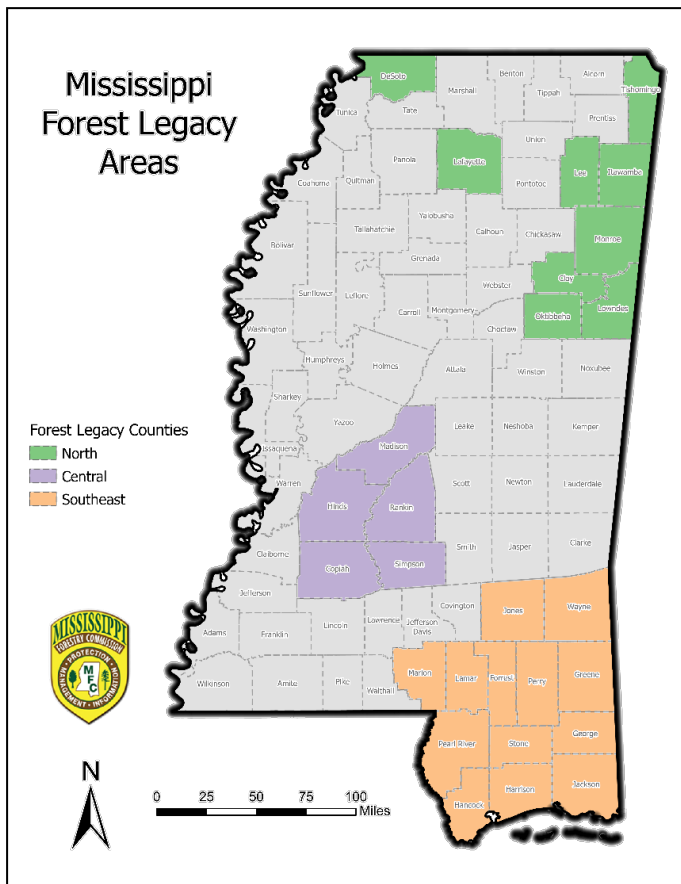

The purpose of the Mississippi Forest Legacy Program (FLP) is to identify and protect environmentally important forest areas threatened by conversion to non-forest uses and to promote forestland protection and other conservation opportunities. The U.S. Forest Service provides up to 75% of the funds through a nationally competitive grant program to the state, and the program is managed locally by the Mississippi Forestry Commission. The FLP collaborates with private landowners to acquire perpetual conservation easements that permanently limit property interests and uses to protect forest values. FLP also purchases and accepts donations of forestland in full fee. The FLP only works with willing sellers or donors.

Designated Mississippi Forest Legacy Areas (FLAs) are:

North - Clay, Desoto, Itawamba, Lafayette, Lee, Lowndes, Monroe, Oktibbeha, Tishomingo

Central - Copiah, Hinds, Madison, Rankin, Simpson

Southeast - Forrest, George, Greene, Hancock, Harrison, Jackson, Jones, Lamar, Marion, Pearl River, Perry, Stone, Wayne

Prior to completing this application, you are strongly encouraged to review the *Mississippi Forest Legacy Program Plan*

(<https://www.mfc.ms.gov/programs/private-landowner-services/forest-legacy-program/>) for eligibility requirements and program guidance.

Only properties located in one of the designated Mississippi FLAs will be considered and must meet the national and state criteria and must have a completed application submitted by July 15th. All easements and interests in land acquired through the program are conveyed in perpetuity and must contain such covenants and language to insure perpetuity of FLP easements. **Participation in is strictly voluntary. For applications to be considered for federal fiscal year 2024, the deadline for application submittal is July 15, 2022.**

All materials submitted with this application become the property of the State of Mississippi and are non-returnable. Disclosure of this information is voluntary. However, failure to provide all of the requested

information will substantially decrease the ability of designated persons to carefully review and rank your application and property for participation in the program.

The Mississippi Forestry Commission provides equal employment opportunity and services to all individuals regardless of disability, race, age, religion, color, gender, creed, national origin, or political affiliation.

Deadline for submitting application is July 15th.

SECTION IV. HOW YOUR PROPERTY FITS INTO THE NATIONAL FLP CORE CRITERIA

Nominated properties must compete nationally for FLP funds. They will be scored using three (3) national core criteria (Importance, Threatened and Strategic) AND must demonstrate that they are “Ready” to be part of the Forest Legacy Program. These criteria are listed below – please describe how your property relates to each by answering each question below in as much detail as necessary.

1. **WHAT IS THE IMPORTANCE OF YOUR PROPERTY AS IT RELATES TO ANY ENVIRONMENTAL, SOCIAL OR ECONOMIC PUBLIC BENEFITS THAT WOULD BE GAINED BY PROTECTING AND MANAGING IT?**

***Helpful hints** – Describe in detail any attributes that are applicable to your property. More points will be given to projects that demonstrate multiple public benefits with national significance. Use these questions to help you describe the importance of your property. Please provide details to explain your answers.*

- *How does your property demonstrate sustainable forest management, contribute to the resource-based economy of the community or region? Does it have highly productive soils? List site index. Is*
- *Do you have a management plan? Is the property third party certified?*
- *Does it provide non-timber revenue to the local or regional economy through activities such as hunt leases, ranching, non-timber forest products, guided tours (fishing, hunting, bird watching), and recreational rentals (bikes, boats, outdoor gear). Is it important habitat for documented threatened or endangered animals or rare plants or species or natural communities of concern? Have species of concern been documented on your property?*
- *Does it contain unique forest communities or habitat documented by a formal conservation plan?*
- *Does it provide important watershed or riparian values, or is it in a scenic viewshed, or bordering a federal wild and scenic river or state scenic stream? Does it provide a buffer for a public drinking water supply, contain an aquifer recharge area or sensitive watershed lands?*
- *Does it have formally designated cultural, tribal or historic features?*
- *Does it provide public access?*
- *Is it in a priority area for climate resilience?*
- *What local communities will benefit from protecting the forestland?*

2. EXPLAIN HOW YOUR PROPERTY IS THREATENED BY DEVELOPMENT OF CONVERSION TO OTHER USES.

Helpful Hints: *This criterion estimates the likelihood for conversion. Please address the following:*

- Legal Protection - *Are there any legal protections that currently exist on the property (such as current zoning or existing easements)? If so, do these protections remove the threat of conversion, and to what extent?*
- Land and Landowner Circumstances – *For example: property held in an estate, aging landowner, future use of property by heirs is uncertain, property is up for sale or has a sale pending, landowner has received purchase offers, land has an approved subdivision plan, landowner has sold subdivisions of the property, good land steward interested in conserving land, etc.*
- Adjacent Land Uses - *Status of adjacent properties, rate of development growth and conversion in area, rate of population growth in the county or area in recent years, rate of change in ownership, etc. These are great to illustrate on a map too.*
- Ability to Develop - *Physical attributes that will facilitate conversion, such as ease of development, access, slope, water/sewer, electricity, permits, etc. Other types of conversion include agricultural expansion, wind or solar farms, or other uses that substantially remove or fragment forest cover.*

3. HOW IS THE PROPERTY STRATEGICALLY LINKED TO OTHER PROTECTED AREAS NEARBY?

***Helpful Hints:** This criterion reflects the project’s relevance or relationship to conservation efforts on a broader perspective considering scale, location, and relative contribution to landscape scale conservation goals. Discuss the following three attributes:*

- **Conservation Initiative, Strategy, or Plan** – How the project contributes to an existing or new conservation plan, strategy, or initiative. Describe the contribution of the property to achieving the conservation goals of the plan, strategy, or initiative.
- **Complement Protected Lands** – How the project is strategically linked to already protected lands including past FLP projects, Federal, State, or non-governmental organization lands, or other Federal land protection programs.
- **Landscape scale goals and benefits** – How the project strategically contributes to the advancement of larger scale conservation goals and public benefits. Examples of larger scale goals and benefits could include climate resilience and mitigation, reduced community impacts from wildfire, floods, invasive species, and protection of critical water supplies. Include any benefits to disadvantaged communities in the project area.

4. IS THE PROPERTY “READY” TO BE A PART OF THE FOREST LEGACY PROGRAM? *Helpful Hint:* *These items are not required for the application to be considered, but any of these items that show the amount of due diligence that has already been completed will strengthen the application. To demonstrate readiness to go forward, describe and/or attach any of the following items to this application or indicate if they have been completed such as:*

- *A cost estimate (market analysis or preliminary appraisal of the property).*
- *A signed agreement by the landowner to the easement or fee acquisition conditions.*
- *A commitment to cost share from partners – list any potential partners (we must have at least 25% non-federal cost share).*
- *A signed option or purchase and sales agreement.*
- *A survey.*
- *Title search.*

The information in this application is true to the best of my knowledge and belief. I, as the landowner or landowner’s authorized representative (proof of authorization must accompany the application), agree to allow any needed inspection, appraisal and survey of the property being offered for consideration under the Mississippi Forest Legacy Program. I agree to allow members of the Mississippi Forestry Commission, the Mississippi Forest Legacy committee or their designee to inspect my property at any reasonable time for the purposes of this application. I understand I shall be notified in advance of all inspection visits.

I also understand that the resource values identified by me in this application for protection will be used by the Mississippi Forestry Commission to rank the project. Therefore, future protection and management of these resources are implied in the application and will be required in the easement (if applicable) and subsequent management plans. Substantial modifications of the intent set forth in this application by me or my representative will necessitate a review of the project and may jeopardize its selection and possible funding. I also understand that this property (i.e., conservation easement or fee simple title) will not be purchased if negotiations do not reach an amicable agreement, or if the property does not meet the needs or qualifications of the Mississippi Forest Legacy Program or if funding is unavailable. I understand that conservation easements or fee simple title will only be purchased from willing sellers.

I have read the application and understand that all Forest Legacy projects will be reviewed by the MFC for their suitability to the Mississippi Forest Legacy Program.
